## Long Reach Airflow

Jet Air Technology used as part of the design of the Bronte® Series enables a powerful airflow of up to 18m\* and is ideal for large living areas.

\*from 6.3kW in cooling conditions

## Clean Air Technology

### Delivering Odour and Allergen Free Air

Mitsubishi Heavy Industries Allergen Clear System removes airborne allergens such as pollen and dust by capturing them in a specially formulated Allergen Clear Filter and eliminating them via the multi-stage Allergen Clear Operation.

A photo-catalytic filter captures any remaining particles and neutralises odour causing bacteria before the Self Cleaning Mode dries the internal anti-microbial fan and internal components, ensuring fresh air on every start-up\*

\* Allergen Clear Operation and Self Clean Operation are two independent operations which can be activated on the remote control.

#### 1. Filter

Allergens captured by advanced enzyme filter.

#### 2. Cooling Mode

Unit generates internal moisture, activating enzymes within the filter neutralising allergens.

#### 3. Heating Mode

#### 4. Self Clean Operation

Fan dries internal components, preventing the growth of mould.

## Allergen Clear Filter

Utilising the advanced Enzyme-urea compound the Allergen Clear Filter breaks down pollen, dust and allergens and deactivates bacteria including mould and viruses.

# **NEW** Zoned Energy Rating Labels for Air Conditioners

The Australian Government, under the Greenhouse and Energy Minimum Standards (GEMS) Act, have announced that a new Zoned Energy Rating Label (ZERL) will be rolled out across Australia from the 1st of April 2020.

## The **NEW Zoned Energy Rating** Labels provide more information than the previous labels including;

- HOW MUCH COOLING AND HEATING POWER AN AIR CONDITIONER CAN PROVIDE
- HOW EFFICIENT AN AIR CONDITIONER IS DEPENDING ON WHERE YOU LIVE
- HOW MUCH ELECTRICITY THE AIR CONDITIONER WILL USE, DEPENDING ON WHERE YOU LIVE
- HOW MUCH NOISE THE INDOOR AND OUTDOOR UNIT PRODUCE

The NEW Zoned Energy Label has now been applied to all MHI Systems. While these labels may look different, rest assured all MHI units are still the same high performing units you know and love.
